

DELTA®-CLEAN U-DEGREASER 32

Article number: 08405806

This cleaner bases on a model kit. The DELTA®-CLEAN PT 1030 has the function of the alkaline builder. It also serves as electrolytical cleaner. The DELTA®-CLEAN PT 1031 is used as base tenside with high cleaning and dispersing properties in dip cleaners. The DELTA®-CLEAN U-DEGREASER 32 is a special additive that enhances the dispersing property. This is why it is only added when needed. The combination is very suitable for oily and graphite dust polluted parts. Der DELTA®-CLEAN U-DEGREASER 32 wirkt in Kombination mit DELTA®-CLEAN U-DEGREASER 30 und DELTA®-CLEAN U-DEGREASER 31 als Sonderzusatz, der je nach Bedarf zur Erhöhung der Dispergierfähigkeit beiträgt. Das Produkt ist flüssig und demulgierend. Die Produktkombination ist Silikatfrei und ultrafiltrierbar.
